STUDENT WITHDRAWAL FROM SCHOOL

Student withdrawal from school may be classified into two categories: Those who transfer to another school system, either public, private or home school exemption, and those who withdraw from permanent attendance at any school (dropouts).

If a student wishes to withdraw from school to transfer to another school district he or she should see the principal who will instruct him as to procedure. When transferring to another school, a student should make arrangements with the office to forward credits to the proper school. All outstanding obligations to the school the student is currently enrolled in should be satisfied before credits can be transferred.

Students who are 18 years of age may withdraw from school. Each student will be informed of his or her right to be readmitted to school upon request.

Students seeking re-admittance to the district schools will be permitted to re-enroll at the beginning of established semesters, and will be required to provide notification of their intent to re-enroll one week prior to the start of a semester. Timing and re-admittance will be at principal discretion.
