

Harrisburg School District	NEPN Code: JG
Policy Manual	

STUDENT DISCIPLINE

Staff and students share responsibility for maintaining a climate in which education can be pursued. What is best for the individual must be balanced with what is most desirable for the entire school population.

Student handbooks at each school within the Harrisburg School District will establish discipline plans that are verified by the Board. The Board will give any direction in regard to disciplinary procedures. Discipline plans and consequence and reward systems are the purvey of each individual school principal and staff.

The Board extends to all of its school employees, professional and nonprofessional, the authority to enforce policy and regulations governing student behavior. Students will comply with the directions given to them by staff members.
