

Harrisburg School District	NEPN Code: EEAB
Policy Manual	

SCHOOL BUS SCHEDULING AND ROUTING

The transportation supervisor will conduct studies of bus routes to provide the safest, shortest routes that will get all children to school in the most economical way. Routes will be arranged in such a way as to equalize as nearly as possible the length of routes and bus loads, and to provide for the full use of buses. Arrangements will be made to provide each child transportation to school within the prescribed time limits.

When practical, safe, timesaving and economical, transfers may be made from one bus to another. Bus routes will not overlap unless absolutely necessary. When more than one bus travels on an arterial highway, each bus will be assigned a certain portion of the route and all children within this section will ride the bus to which they are assigned. Only one bus will cover one particular road unless overloading occurs on that road that divides borders.

Buses will not go off the main route to pick up children. Children will not be put off the bus until reaching their destination.
