

Harrisburg School District	NEPN Code: FB
Policy Manual	

FACILITIES PLANNING

The Board is responsible for the regular operation and orderly development of its physical facilities. For this reason, the Board will concern itself with both short and long-range planning as it relates to the properties of the school district.

This program will be subject to systematic study, revision, and extension from time to time, and the respective construction projects will be acted upon individually when proposed for implementation.

The Board's building program will be designed to provide adequate facilities to conduct full-time elementary, middle school, and secondary education programs for all students residing in the district. The building program will be based upon specific Board policies that have been and will continue to be modified to conform to changes in the curriculum, availability of construction funds, and changes in enrollments.
